ORIGAMI DIAGRAMS

# Dog Face

The origami dog face is a simple puppy head with floppy ears folded from one square, and children often draw on eyes and a nose to finish it. It is very easy and takes about three minutes, making it ideal for first-time folders.

Easy - 6 steps - 3 min

1

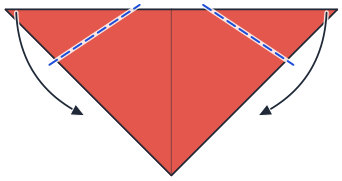

Arrange the square as a diamond with the white side up, and bring its upper corner down onto the lower one.

2

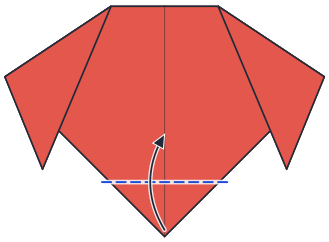

Bring the triangle's side corners together to crease a vertical midline, then open it again.

3

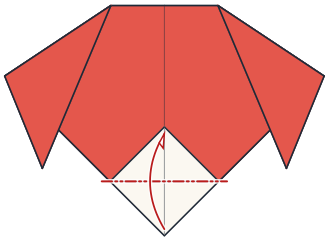

Fold the side corners downward at a slant, so they dangle on either side of the face like droopy ears.

4

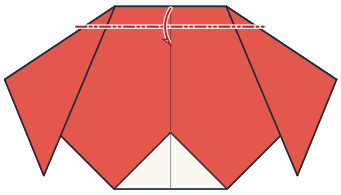

Lift just the tip of the front layer at the bottom point to make the dog's mouth.

5

Take the remaining bottom layer and fold it up behind the face.

6

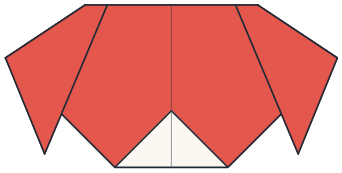

Fold a narrow strip along the top edge behind to round the top of the head.

## Done

Add two eyes and a nose with a marker to finish the dog face. It makes a simple puppet or a cheerful decoration for a bookmark.
